Our company

Badge4u owners

Since 1992, Badge4u has been specialising in various promotional gadgets, including button badges, machines and components for button badges production, products with magnets, smartphone accessories, security products, bottle openers, keychains , tokens and microfiber cloths. As an environmentally friendly company, we would like to introduce a new line of biodegradable products for 2023.

The production conditions, our care for environmental issues and work organisation standards have been highly evaluated by the auditors and earned us a number of the quality and environmental certificates, such as ISO 9001:2015, ISO 14001:2015, and ISO 45001:2018.

Badges and magnets

Almost 30 years of experience and expertise in the production of promotional badges combined with our continuous search for new and attractive technological solutions, short production time and high quality of our products have won our badges the undying popularity among the clients. We offer standard round badges with the diameter between 25 to 158mm as well as badges of different shapes and sizes. All of them are customised with our clients' graphic designs.

New badges

Paper badge and paper name badge

Our name badges and any shape badges are made of sustainable materials. They can be recycled for a more environmentally friendly way of providing visitors with personalized event badges. Enhance your brand image with a more sustainable solution. Any size and shape with UV printing is possible. Available in three thickness options: 1, 2 or 3mm, and with three type of fasteners: pin, magnet or alligator clip.

Any shape badge Any shape name badge three thickness options: 1 / 2 or 3mm relief finishing three type of fasteners: pin, magnet or alligator clip.

Biodegradable badge (56mm)

Out of concern for the natural environment we want to introduce our new ecological and fully biodegradable badge.

Biodegradable self assembling badge

Biodegradable badge (56mm) with pinless closure which can be easily made without any specialised equipment.

New safety pin

New!

New type of the safety pin.

SIZE: 38/45/50/56/58/75/78/90/100mm

Pinless badge (38/45/50/56/75mm)

It is a real revolution on the badge market! Thanks to the innovative design of the fastening mechanism, our badges will now meet all of the safety requirements, including those for children under European standard EN 71-1/2/3.

Manual cutter for cutting paper printouts for badges with the diameter between 25-100mm and all other shapes

W cutter

Manual cutter for cutting paper printouts for badges with diameter between 25-75mm and all other shapes

Smartphone accessories

Phones have become a very important part of our everyday lives. Their role has been constantly changing following the technological advancements and now they are no longer mere means of communication used only for calling or sending text messages. They are very often used in place of computers or credit cards. In order to meet the expectations of our clients, we have created a whole series of products which will not only decorate your phone but it will also help you keep it clean or change it into a professional GPS device by using it with a special holder for your car's vent grid.

Sticky cleaner

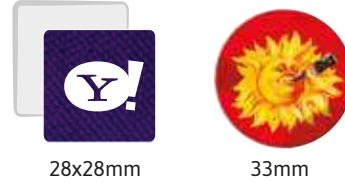

Sticky cleaner, which can be made in any shape and size, is a practical and interesting promotional gadget for anyone. The cleaner is made of two layers: cleaning microfiber layer with a customisable full colour design and back layer made of adhesive silicone which sticks to all flat surfaces. Our cleaners are packed individually with customisable backing cards into polybags with glue.

Security products

Online spying or stealing money from contactless payment cards is nothing new. We are surrounded by technology whose constant development is not always accompanied by the development of applicable safety measures. That makes us concerned about the protection of our data and image online. Our security products will help you fight off those concerns and what is more, customise your devices with a logo or graphic design.

Data protector

NEW!

Data Protector keeps all your data safe on active devices, connected with USB cable. Use at the airports, in hotels and other public USB charging stations. The Data Protector blocks data connector, it allows only the flow of current. The product available in size of 26x28 mm can be printed on both sides. Protect your data against unauthorized access and malicious software by using our Data Protector.

Passport guard

Special sleeve with a customisable design which keeps your passport with RFID chip safe wherever you go.

Keychains, tokens and openers

Many functions in one tiny gadget is a sure way of simplifying many of the mundane everyday activities. Our products are not only means of promotion and advertising but they are also items which will come in handy in many different situations. Small dimensions combined with multi-functionality make the gadgets indispensable. A customisable imprint or a sticker can boost the individual character of the product or successfully advertise an event or a brand.

Simple dimple

NEW!

This unique keychain provides endless source of fun for both young and adult users. Body of Simple Dimple is made of solid ABS – ideal for printing, while two „clickable” buttons are made of silicone. It is nearly impossible to stop playing once you have started.... Available in 2 standard colors: white ABS with black silicone buttons and black ABS with white silicone buttons. Other colors available on demand.

Microfiber cloths

Microfiber is a mixture of fine fibre with special properties. It does not pick up static, removes dust and dirt without leaving any streaks or smudges. It is perfect for cleaning glass surfaces and screens of all electronic devices. What is more, when soaked in cold water it acquires special cooling properties which make microfiber a type great of material for towels, especially for those people who like to be active.

Multifunctional bandana

Our multifunctional bandana comes in handy in all situation which you may meet during your everyday outdoor activities. During bike trips, it can serve as a mask protecting you from the sweat dripping down your face or dust on the uncharted roads which just wait to be discovered. During walks, you can use the bandana to protect yourself from sun or cold.
